New Brochures Are Readied By C of C

The new Pahokee Chamber of Commerce brochures for 1953 are off the press and will be mailed to members this week, according to an announcement made by Mrs. Carlos Orr, C of C office secretary, at an executive board meeting in the chamber office Monday night.

The board decided to keep the chamber office open for the convenience of tourists and other visitors through the entire year. President Ralph O. Johnson appointed Leonard Dobrow to head the annual C of C membership drive this spring, the date and other details to be announced.

Mr. and Mrs. W. A. Slatter spent the weekend in Lake City. They were accompanied there by his mother, Mrs. John McCormish, of Knoxville, Tenn., and his sister, Mrs. C. M. Weaver, of Lake City who have been house guests here of the Slatters.

Blue Devil Basket Squad Trims Rams

Paced by their ace guard, "Dead Shot Danny" Mullis and blistered by two newcomers on the team, Center Sims and Guard Robert Goodson, the Pahokee Blue Devil five subdued the hard-fighting Golden Rams from Belle Glade, 59-58, in the local gym Tuesday night and avenged the defeat inflicted on them by the Rams in the season's opener.

The game, tied 28-28 at the half, was a thriller-diller from start to finish with Mullis showing top form in caging 10 field goals and 5 free throws for 25 points. Sims, with 10 points to his credit, was runner up in individual scoring for the Blue Devils, while Lewis Pope forward, and Goodson tied for third place, both with 8 points each. E. Engel, guard, ran up 16 points to pace the Rams' scoring.

The preliminary game between the B teams was just as exciting as the main event, the Ram Bees requiring an overtime period to shade the Blue Devil Bees 39-37. One spectator was heard to remark at the end of the two games, "What a shame we don't have a larger gymnasium in Pahokee so more people could see these thrilling games. Some friends of mine, who are basketball fans, didn't come tonight because of the objectionable cramped quarters."

The Blue Devils were scheduled to play the Clewiston Tigers in a return game on the local court Thursday night of this week and will again be hosts on the local court Tuesday night, Feb. 10, to the Fort Pierce Eagles. In their initial contests with these two teams the Blue Devils defeated Clewiston and lost to Fort Pierce.

A Strong Commission

(Editorial from Palm Beach Post)

Reorganization of the new County Commission has again brought to Lake Lytal the chairmanship for the next year. Mr. Lytal served as chairman in 1950 and did a creditable job during that year. He now gets another chance to lead the Commission wisely in a time of significant importance to all residents. We congratulate him.

We also wish to congratulate Roy E. Michael, Jr., the new Commissioner from Lake Worth, who has taken his seat on the Commission, and Ben F. Sundy, Delray Beach, upon his election as vice chairman. The other two commissioners, Kenneth P. Foster, retiring chairman, and Paul Rardin, Canal Point, round out a well-chosen group to operate Palm Beach County for the next four years.

No doubt there will be many occasions when level heads will be needed in doing this important work, and we believe the citizens of the County have chosen well in selecting the men to do a job for them in the courthouse. Four of them have proved their worth on the County Commission, and the fifth, Mr. Michael, has proved himself by his work on the Lake Worth City Commission for several years.

All in all, we believe the affairs of Palm Beach County now are in good hands, and these newspapers offer the County Commission full cooperation in all things for the good of the County.

TALLAHASSEE Yesterday & Today

(By Jack Sutor)

Usually in every political campaign each side throws the book at the other. One of the criticisms you heard about Governor Dan McCarty in his two campaigns was that he lacked human warmth and friendliness. If that were true, it certainly should have been in evidence since his inauguration. But it hasn't. Folks here are finding him a right neighborly sort of fellow. And he came back from the Presidential Inauguration full of humility and awe at the power and might of these United States.

Another story that demonstrates the quiet neighborliness of the McCarty's is the one about the young whippersnapper on a scavenger hunt who was ordered to get the Governor's signature late one evening. He drove up to the mansion, rang the bell; Mrs. McCarty came to the door and let him in; he met the Governor; got the signature, and was on his way.

Then there was the question from a reporter at a press conference about whether his oldest boy would attend school here. The Governor's answer was not sharp but it was short—"Certainly, where else would he go?"—indicating that he feels the American public school is a pretty good place to

raise kids.

Only recently he came out for increased old age pensions. Such a stand is not usually taken by a man who lacks human feeling.

Three outstanding members of the State House of Representatives are understood to be candidates for speaker in 1955. They are Ted Davis of Broward County who has announced publicly and is running hard; Gus Dekle of Taylor County who has been waging a quiet but effective campaign; and Bryant Patton of Franklin County who has been prominently mentioned for the post. The issue will be settled at an early caucus of the House in April . . . "Florida Highway," official news organ of the State Road Department and the road building industry will be dropped with the February issue being the final one. Chairman Dick Simpson critically and rightly observed that it had "no appeal."

Probably stepping in to fill the void in this particular publishing field is the "Florida County Official," published by Paul Rardin, veteran Palm Beach County editor, and county commissioner.

The Donkeys Are Coming To Canal Pt.

The donkeys are coming! Different sizes, shapes and colors but all with their own individualities, or so says the manager of the Orange J Ranch. They've been in the donkey business for a long time, and think this is the finest group of baseball minded burros on the road.

Each donkey is a graduate of their "Donkey College" and is a past master at his own particular specialty, whether it is base stealing, sliding, bucking or just plain standing still. In case you haven't heard, they are to be used in the soft ball game on Feb. 17 at Canal Point School grounds under the auspices of the Canal Point Lions Club.

All the players, excepting the pitcher and the catcher are to be mounted on the donkeys, and are to run bases, field balls and to make all other plays while riding on the donkeys. And, what is more, they will have to cope with the donkeys' ideas as to what should be done on the field and in the game.

To add to the sport of the night the sponsors have arranged for a complete floodlighting system to be set up at the field and the entire game will be played under the giant lights.

Members of Florida Citrus Mutual will be honored guests of the 1953 Florida Citrus Exposition Feb. 19, which is to be observed as Fresh Fruit Day.

Cinematic Chatter

By Malcolm Miller

Hello everybody! If it's a career on stage or screen you're after, don't concentrate entirely on the study of drama and ignore the human experiences of life. This is the advice offered by Kirk Douglas, one of Hollywood's most popular actors. "Learn to live and get a good general knowledge of life," the sturdy star says. "The more you know about different things, the better understanding you have of the part you are to play. No coaching will bring you the final flavor to a role. That's your own, personal contribution, based on experience and what you've amassed as a person. It's an absolute 'must' for an actor or actress to be well-informed."

While he's not underestimating the value of drama school training, Douglas is of the opinion that the average newcomer thinks he must give full time to acting only and pass up subjects which don't seem directly to bear on the technique of giving a performance. "I think my most effective teacher for the job of acting was my general arts course at college and, later, the hard knocks and variety of occupations that I undertook waiting for my big chances." Included in his background are such work intervals as punch-press operator, bus boy at Schraff's, bell-hop, parking lot attendant and usher. He even wrestled at carnivals. "All successful people in show business have an inquisitiveness for all forms of art," said Douglas, "while the acting fledgling is inclined to be one-sided and mistakenly pass up the very things necessary to his own success." See you at the movies—

Turnpike Will Be Discussed At Daytona

DAYTONA BEACH—Florida's toll turnpike will be the subject of a radio debate at Daytona Beach Friday evening, Feb. 6, when two South Florida businessmen square off with two Daytona Beach citizens over local station WROD.

Scheduled for 8:30 to 9:00 p.m., the moderator will be W. Warren Cole, Jr., chairman of the Daytona Beach Jaycees radio committee, sponsors of the broadcast. Opposing the toll turnpike will be M. L. Miles, manager of the Daytona Beach Chamber of Commerce, and Thomas T. Cobb, state representative from Volusia County.

Pointing out turnpike benefits will be two men from a three-man Dade County team who will travel to Daytona Beach for the debate. These will be Charles B. Costar and Kermyt Callahan, Miami businessmen and J. Peter Knowles, manager of the Coral Gables Chamber of Commerce. The three are members of the Miami Chamber of Commerce Super Highway Committee of which Costar is chairman.

The debate via the airwaves will give thousands of listeners an opportunity to learn more about Florida's acute highway problem. Following closely on the heels of an announcement by the Florida Highway Patrol that US Route 1 was the state's most dangerous road for the year 1951, the broadcast points to the seriousness of Florida's highway problem.

Supporters of a planned highway program in Florida point out the advantages of safety-engineered roads that would reduce accident rates and provide quicker travel between points. Heavy construction to withstand the expected increase in tomorrow's traffic is also a basic necessity, they state.

This means more money to you!

**NOW YOUR U. S. SERIES E BONDS CAN EARN INTEREST
TO EXTRA YEARS**

ALL YOU WISE and patriotic people who bought United States Series E Bonds ten years ago and have held them can benefit by this new law! For according to this law the bonds you expected to mature finally in 1952 can now continue to earn interest every year for ten more years—till 1962—without your even lifting a finger!

To get this extra money, there's absolutely nothing you have to do. Just hold your bonds and let them go on earning!

If you wish, you may still cash any Series E Bond at any time after you've owned it for sixty days. But you'll be better off to hold your bonds, just as you're better off to hold savings in any form.

First of all, as long as you don't cash your bonds, you don't have to pay income tax on the interest they earn. In the second place, cash in the pocket melts away fast—often with little or nothing to show for it. But cash in bond savings is always there—growing steadily toward the *big sum* which can buy something really worthwhile... And remember—the interest rate on Series E Bonds has been increased to 3% compounded semi-annually, when held to maturity.

So if you have bonds coming due, why not take advantage of your extra-income opportunity? Just sit back and let them go on mak-

ing more money for you. And meanwhile keep adding to your cash savings by buying more U. S. Defense Bonds regularly—through the Payroll Savings Plan where you work. It's the easy, systematic saving plan that's so helpful because it lets you save *before* you even draw your pay. Thousands on the Plan say it's the one sure way to save.

3 NEW MONEY-MAKING OPPORTUNITIES FOR YOU!

New Series H, J, and K

Defense Bonds pay 2.76% to 3%

If you want to get the interest on your bonds in the form of current income, or if you want to invest more than the annual limit for E Bonds, ask at any Federal Reserve Bank or Branch about these new bonds:

SERIES H. A new current income bond, available in denominations of \$500 to \$10,000. Sold at par. Matures in 9 years 8 months and pays approximately 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Annual limit, \$20,000 maturity value. Issued only by Federal Reserve Banks and Branches and at the Treasury.

SERIES J. A new 12-year appreciation bond, available in denominations of \$25 to \$100,000. Sold at 72% of par value. Pays 2.76% compounded semiannually if held to maturity. Annual limit, \$200,000 issue price jointly with Series K Bonds.

SERIES K. A new 12-year current-income bond in denominations of \$500 to \$100,000. Pays interest semi-annually by Treasury check at the rate of 2.76% per annum. Sold at par. Annual limit, \$200,000 issue price jointly with Series J Bonds.

Christian Science Group Of Canal Point

Theme of Christian Science services next Sunday is the reassuring fact that all can receive the knowledge of God, Spirit, and rest in His protection. "SPIRIT" is the subject of the Lesson-Sermon. The Golden Text is from John (4:24): "God is a Spirit: and they that worship him must worship him in spirit and in truth."

Bible passages include the following from I Corinthians (2:12): "Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Material sense never helps mortals to understand Spirit, God. Through spiritual sense only, man comprehends and loves Deity" (p. 481).
